The Aiken Group

Aiken Group was founded in 1987 as a multi-disciplinary engineering services company specialising in modular construction, welding habitats and architectural works.

The organisation has continued to evolve as an international engineering and specialist group with a focused response to meeting customers needs, offering flexible solutions and providing bespoke, innovative results tailored to the most demanding specifications.

Our disciplines can be applied to a variety of facilities in locations both on and off shore including drill rigs, fixed installations, FPSOs, marine vessels, fracking and oil installations, petrochemical plants, refineries, security/military facilities, commercial properties and social housing developments
